1. This is a first Office action on the merits for application serial number 10/600617 filed 06/23/03. Claims 1-11 are pending.
2. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 08/820231.
3. Acknowledgement is made of the IDS received 06/23/03. The IDS has been considered to the extent possible. The examiner has been unable to obtain copies of several of the Foreign Patents and the IDS fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each reference patent and Non Patent Literature listed that is not in the English language.
4. The disclosure is objected to because of the following informalities: the first sentence of the specification should be amended to reflect that the parent application has now issued.

Appropriate correction is required.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3, 7 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 3,984,961 to Chieger et al.

Chieger provides first plate 19, second plate 21 and recessed portions 24, 25 for carrying out a welding operation (column 2, lines 31+) at a connection portion of the first and second plates with a third plate 22.

7. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 5,383,406 to Vanolo et al.

See the member of figure 12 which appears to show a corner portion within an extension of the end wall.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
